DEFINITIONS

Medical Follow-Up Examination means an office visit for diabetic vision care after the initial Comprehensive Eye Examination.

Some or all of the diagnostic services described below will be provided as deemed appropriate, subject to provider determination and the benefit frequency limitations referenced above. More comprehensive descriptions of these services are available in the Certificate of Insurance.

Fundus Photography Examination means photographing portion(s) of or the complete retina surface and structures, with interpretation and report. (*The Fundus Photography Examination is not covered if an Extended Ophthalmoscopy was provided within the previous six-month period.)

Extended Ophthalmoscopy means an examination of the interior of the eye, focusing on the posterior segment of the eye, including the lens, retina, and optic nerve, by direct or indirect ophthalmoscopy, and includes a retinal drawing with interpretation and report. (*The Extended Ophthalmoscopy is not covered if Fundus Photography Examination was provided within the previous six-month period.)

Gonioscopy means an eye examination of the front part of the eye (anterior chamber) to check the angle where the iris meets the cornea with a gonioscope or with a contact prism lens.

Scanning Laser means a computerized ophthalmic diagnostic imaging, posterior segment, with interpretation.
